

Networking Trackers

The **Wi-Fi Network Equipment Tracker** examines the market for wireless LAN (WLAN) equipment. Quarterly vendor market shares are provided based on unit shipments and manufacturer's revenue. The data is segmented by technology, equipment type, and geography.

- 802.11g, multimode, and Draft N
- Access points and network adapters
- America, EMEA, Asia, ROW

The **Ethernet Switch Tracker** examines the market for Ethernet Switching equipment. Quarterly vendor market shares are provided based on unit shipments and manufacturer's revenue. The data is segmented by technology, equipment type, and geography.

- Fast Ethernet, Gigabit Ethernet, and 10-Gigabit Ethernet
- Fixed and modular
- Includes Layer 2, Layer 3, and Layer 4-7
- America, EMEA, Asia, ROW

The **Broadband Customer Premises Equipment (CPE) Tracker** examines the market for broadband modems, routers and gateway equipment. Quarterly vendor market shares are provided based on unit shipments and manufacturer's revenue. The data is segmented equipment type, and geography.

- Cable modems
- DSL modems
- SOHO routers
- Residential gateways
- America, EMEA, Asia, ROW

Example of the Typical Level of Detail:

Total NICs Multimode—Worldwide Unit Shipments (in Thousands)																
Company	2Q06	3Q06	4Q06	1Q07	2Q07	3Q07	2006	2007	2Q06 %	3Q06 %	4Q06 %	1Q07 %	2Q07 %	3Q07 %	2006 %	2007 %

Networking Trackers

Data Elements: **Equipment shipments – units**

- By technology
- By form factor

Revenue – US dollars

- By technology
- By form factor

Critical Questions Answered:

- Who are the top vendors in each equipment segment?
- What is the rate of market adoption for 802.11n WLAN equipment?
- How quickly are residential gateways disrupting the market for standalone modems?
- How is the demand for additional services impacting the Ethernet switch market?
- What is the rate of market adoption for 10-Gigabit Ethernet switch equipment?

Regions Covered: Networking quarterlies are global in nature with broad regional breakouts for some areas.

Deliverables: Networking Tracker services are delivered to the customer in a convenient, well organized Excel format after the end of each calendar quarter.

About In-Stat:

In-Stat is the leading provider of interactive market information and research, market analysis and forecasts for the Mobile Internet, Digital Entertainment, and Business Markets ecosystems. Our insights are derived from a deep understanding of technology, nearly 30 years of experience in research and consulting and close relationships with leading players in each of our core markets. Technology and semiconductor vendors, service providers, and infrastructure and device manufacturers worldwide rely on partnerships with In-Stat's tenured, experienced staff and on our in-depth research to support critical business, product and technology decisions.
